

# THE PROBLEM IS OBVIOUS. THE SOLUTION IS CLEAR.

Your students were given a worksheet with a picture on which they can identify problems and solutions to air pollution. The following is a list of the things they may find.

## CIRCLE THE PROBLEMS

- Empty car idling
- Driving alone in a car
- Tracking mud onto paved road
- Burning yard waste and garden clippings
- Agricultural field burning
- Pouring used motor oil down a sewer drain
- Smoking
- Littering
- Driving fast on an unpaved road
- Smoking chimney from burning wet wood
- Spilling gasoline at a gas station
- Dumping industrial wastes into the lake

## COLOR IN THE SOLUTIONS WITH BRIGHT COLORS

- Composting yard and garden waste
- Keeping streets and sidewalks clean
- Walking a dog
- Packing a lunch
- Using a push lawn mower
- Taking a reusable bag to the store
- Taking the car in for regular tune-ups
- Riding the bus
- Carpooling
- Riding a bike
- Using the telephone rather than driving
- Buying bulk items at the store
- Vanpooling
- Parking and riding the shuttle
- Keeping wood covered and dry
- Keeping the chimney clean
- Planting a tree
- Raking leaves rather than using a leaf blower
- And more!
