

# TEACHING OUTDOORS 101

Inspiring teachers to use the outdoors and teach climate change

## Professional Development opportunity for 3rd-8th grade teachers!

Join the Teaching for the Climate Collaborative for the fourth year in a row for a self-paced online canvas course! Participants will gain skills to incorporate the outdoors and climate related lessons with students. Time commitment: Approx. 3 hrs of learning in Canvas plus 2 hrs implementing and assessing a lesson with students.

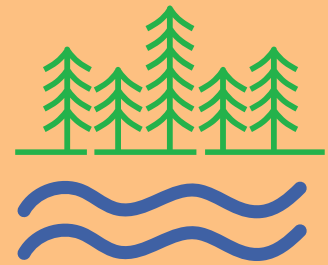

### Ready to sign up? Register at this link!

**Canvas course is open Nov 30-April 30**

After completion receive 4 STEM & 1 Equity clock hours and \$100 stipend for Whatcom County educators

Spaces are limited!

Email Annitra Peck with any questions: [apecck@n-sea.org](mailto:apecck@n-sea.org)

**This course is for 3rd -8th grade teachers with basic NGSS knowledge who would like to:**

- increase confidence in taking students outside
- learn strategies for equitable and effective outdoor learning
- practice lessons about climate change that can be adapted for alternative learning environments
- are looking for ways to bring local phenomena solutions-based learning to their students

**Have you already taken this course? Or are you looking for a more advanced option?** [Sign up here](#) to get notified by email when our in-person field-based 201 course is open.
