

RE SOURCES

Roots & Rivers

A Spring Benefit for RE Sources

Wednesday, May 20, 2026 | 6-8:30 p.m.

Bellingham Cruise Terminal, Bellingham, WA

2026 Sponsorship Opportunities

RE Sources is a leading local organization giving people practical ways to make a real difference for the planet, from passing stronger laws that protect the environment and empowering youth voices, to holding corporate polluters accountable, reducing waste and our own personal impacts. We do this through smart policy, grassroots mobilization, hands-on science and environmental education.

Roots and Rivers is our largest benefit event of the year, providing critical support for our environmental protection and climate action work across Northwest Washington. We expect to bring together 200 of our top supporters, elected officials, and leaders from the community for an evening of generosity, networking, and celebration.

Highlight your business as a partner in sustainability, stewardship and civic engagement. As a sponsor, you are not just supporting a cause. You are investing in a future where we build resilience against climate impacts, create solutions for a more sustainable way of life, and empower communities to stand strong in the face of adversity.

“My real estate business depends on maintaining the beauty and bounty of our Pacific Northwest home... I know I can count on RE Sources to protect these things that we cherish and I am grateful for their work!”

—Danne Neill, Broker and Real Estate Agent
